ROAD WORK AHEAD

Who is FRACCA?

Established in 2001, the Florida Refrigeration and Air Conditioning Contractor's Association (FRACCA) is a trade association of dedicated HVACR professionals, organized to promote the interests of the Florida HVACR Contractor through legislative lobbying, contractor education and enhanced public awareness. Our commitment is to those we represent, our chapter members and members-at-large. Our strength is derived from our member numbers. FRACCA is comprised of more than 350 HVACR contractors and HVACR affiliated firms in eight chapters across the State of Florida. As we grow, so grows our power and influence over the legislative processes that affect our businesses and daily operations. Members

also serve as advisors to the Florida Building Commission, on local and other licensing boards, and therefore have a proactive influence on rules or codes before they are enacted.

We encourage you to come join us and take an active role in promoting the interests of the HVACR industry and contractor. If you are not a member, we invite you to join. For member information visit www.FRACCA.org or contact us at mail@FRACCA.org or 727-576-3225.
